

Ingredients

Hyaluronic acid: it is a key component of connective tissue, responsible for hydration and elasticity of the skin.

Ruscus and myrtillus extracts: two plants rich in isoflavonoids with a strong flebotonic action, able to increase the venous tone and reduce capillary permeability

Rosmarinus and chamomile extracts: a mixture of antioxidant, soothing and anti-inflammatory substances useful for skin repair and for reducing venous stasis.

Vitamin C and SOD: extremely powerful anti-oxidant molecules suitable to prevent and combat the aging process by protecting cells from the attack of free capillaries.

Argireline: biomimetic peptide able to distend and reduce the depth of wrinkles caused by excessive muscle contraction.
Argireline reduces the contraction of dermal myocytes giving a unique lifting effect.

Indications

- Dark circles from circulatory stasis
- Edema of the lower eyelid
- Dermatochalasis
- Improvement of the appearance of expression lines
- “Refreshing” eye contour

Protocol

1 treatment every 15 days for 4/6 consecutive treatments.

The number of sessions may vary depending on the thickness of the skin and on the size of the blemish to treat.

Best results are obtained by realizing 2 treatment cycles a year.

Suggestions: micro applications of 0.05 - 0.06 ml of product per single point until the treatment of the entire area is completed.

Quantities suggested:

2 ml for the treatment of the entire periorcular area

1 ml for the treatment of under-eye bags

2.5 ml for refreshing the entire ocular and periorcular area

Kit composition

The box contains 1 vial of 10 ml.

Average quantity per session: 1.5 ml.

Number of treatments per box: 6.
